

11/24/86 - C.A.H.S. - SRP on Charles Scavo and Jim McMyne
and Maurer Musari - SRP's substitute
day 28

- collated and folded 500 copies of the Calendar promo
during periods 1-3. Later in the same day I
will attach mailing labels to about 350 more
envelopes - my preparations for the early-
December calendar mailing (the last
calendar promotional mailing I will do) are
proceeding nicely. They will all go out
on Saturday (11/29) or Monday (12/1) - probably
about 1300 pieces - the Carbondale News
out-of-town list. The "local" mailing list
from the News did not get a good
response, as expected. The people who care
about Carbondale history are primarily
out-of-town residents, and the response
from the out-of-town mailing list has
been very good so far, and so we shall
give the out-of-town list "no more
go."

- during the past week to ten days I
have been very very systematically and
conscientiously going about going through
my enormous pile of papers "to be
incorporated in Volume I of P.N. 85,
and I must say that I have been
making very good progress. DWP is
also involved and he has supplied
large bundles of additions (the EPJ
European journal and the Wyoming
Seminary letters, for example). Hundreds
of pages are now ready to be inserted.

11-25-86, P. 1

Substitute day 29 - Mr. Andrew Cerra & others -

- during periods 1-2-3, I folded, with the help of several
students, 500 or 600 of the Calendar promo; in the
first period, three seventh graders helped:

Keith Miller - an impish little fellow
Brian Daley - a blond, good looking tough guy
Mike Toleno

During 2nd period, while I had one of Mrs.
Pileavogin's 7th grade art classes in the Cafeteria, a one
Dale Cox came over & sat down & said: "What are
you doing, Mr. Powell?" I explained and he volunteered
to help. Immediately two of his buddies came
over: Robert Taylor & Joe Yackamovich. They
folded much better than the 7th graders. In good
order, the 500-600 copies were ^{almost} all folded. I
wished that I had 500 more copies to fold, so
efficient was the folding operation. At the end
of 2nd period, my three helpers volunteered to
come back 3rd period and finish the job. "Only
with your teacher's permission," said SRP.
At the beginning of 3rd period, they re-
appeared, with a note from R. Bifano, who
authorized their trip to the Cafeteria "to
help Mr. Powell." So much for the folding of
the Calendar promo.

also during 3rd period, Jeff Nepe asked me
to explain "mercantilism" to him. I read over
the appropriate page in his textbook and then
explained "mercantilism" to him. Very
gratifying and amusing and satisfying:
the teacher can always solve every problem,
(from the point of view of the students).
